

## APPENDIX B

### WORLD TOTALS BY TYPE OF CO-OPERATIVE

|               | Number of<br>Co-operatives | Percentage<br>of whole |
|---------------|----------------------------|------------------------|
| Agricultural  | 249,165                    | 36,6                   |
| Consumer      | 67,286                     | 9,9                    |
| Credit        | 202,247                    | 29,7                   |
| Fishery       | 15,134                     | 2,2                    |
| Housing       | 63,928                     | 9,4                    |
| Industrial    | 46,209                     | 6,8                    |
| Miscellaneous | 36,643                     | 5,4                    |
| TOTAL         | 680,612                    | 100,0%                 |

|               | Individual<br>members | Percentage<br>of whole |
|---------------|-----------------------|------------------------|
| Agricultural  | 65,164,185            | 17,9                   |
| Consumer      | 129,581,131           | 35,6                   |
| Credit        | 127,895,439           | 35,1                   |
| Fishery       | 2,162,641             | 0,6                    |
| Housing       | 16,676,554            | 4,6                    |
| Industrial    | 5,934,358             | 1,6                    |
| Miscellaneous | 16,825,422            | 4,6                    |
| TOTAL         | 364,239,730           | 100,0%                 |

TOTAL TURNOVER: \$595,009 millions

## CO-OPERATIVE STRENGTH OF SELECTED COUNTRIES

| Country                  | Population<br>millions | Co-operators<br>millions | % of population |
|--------------------------|------------------------|--------------------------|-----------------|
| Australia <sup>(1)</sup> | 15                     | 4                        | 26              |
| Austria                  | 7.5                    | 3                        | 40              |
| Canada                   | 25                     | 11                       | 44              |
| Denmark                  | 5                      | 1.5                      | 30              |
| Finland                  | 5                      | 2                        | 41              |
| France                   | 54                     | 13.6                     | 25              |
| West Germany             | 61.6                   | 7                        | 11              |
| Italy                    | 56                     | 5                        | 9               |
| Israel                   | 4                      | .7                       | 17              |
| Japan                    | 118                    | 18                       | 15              |
| Sweden                   | 8.3                    | 4.6                      | 56              |
| U.K.                     | 55.8                   | 10                       | 18              |
| U.S.A.                   | 226                    | 58                       | 25              |
